

A brighter outlook in Crohn's disease

Are you interested in taking part in a clinical research study for a potential new Crohn's disease treatment?

If you are 18 years of age or older, have active Crohn's disease, and have found previous treatment(s) ineffective, you may be eligible to join our clinical research study.

As a member of our clinical study team, you'll receive regular study-related health care and the investigational study drug at no cost.

**To find out more about joining us,
call the study team today.**
